Salsa Dip

Ingredients

6 tomatoes

1 red pepper

1 red chilli

Splash of wine vinegar

Salt

Pepper

Utensils

Chopping board

Knife

Bowl.

Tablespoon

Wooden spoon

Method

Wash the ingredients. Cut the tomatoes as small as you can get them. Add to bowl.

Cut the top off the pepper, remove the seeds, cut into slices and then small squares.

Cut the top off the chili and the cut length-ways. Remove all the seeds and slice thinly.

Put all the ingredients into the bowl and then add a tablespoon of white wine vinegar. Add a pinch of salt and pepper to taste and stir well.

It tastes better if it is made up the night before, covered with cling film and left in the fridge.
